Frequently Asked Questions

What are OTC (over-the-counter) hearing aids?

OTC hearing aids are FDA-registered medical devices for adults 18+ with perceived mild to moderate hearing loss. They can be purchased online without a medical exam or prescription, making them a more accessible and affordable alternative to traditional prescription devices.

What's the difference between OTC and prescription hearing aids?

MDHearing	VS	Hearing Clinic
PRICE		
As low as \$297 per pair		\$2,000 - \$7,000 per pair
AGE		
18 years or older		Any age, depending on medical necessity
DEGREE OF HEARING LOSS		
Mild to moderate (no prescription required)		Mild to profound (requires a prescription)
SUPPORT		
Licensed hearing professionals available by email, phone, and video		Licensed hearing professionals available by appointment in clinic

Will OTC hearing aids work for me?

MDHearing's OTC hearing aids can assist over 94% of Americans with hearing loss. We offer assorted accessories so you can find the best fit for your ears, and we back all of our devices with a 60-day risk-free trial so you have plenty of time to make sure they're right for you.
